EDUCATION

Shah & Anchor Kutchhi Engineering College

B.Tech - Information Technology: CGPI: 9.14

Mumbai, India

Aug 2023 - Aug 2027

SKILLS

- **Programming Languages:** Java , Python, JavaScript .
- **Full-Stack Development:** React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS.
- **Databases & Cloud:** MongoDB, MySQL, AWS (EC2, S3, Lambda).
- **Core Concepts & Tools** : Data Structures & Algorithms (Java), DBMS, OOPS, Operating Systems, Computer Networks
Git/GitHub, CI/CD Pipelines, Docker, Postman.

EXPERIENCES

Bot2do Technologies | Full Stack Developer Intern | Work From Office

June 2025 – Dec 2025

- Developed a production ERP system with role-based task allocation and tracking.
- Built an appointment booking system with an admin dashboard and automation features.
- Integrated WhatsApp API for real-time notifications and reminders.
- Implemented JWT-based authentication and role-based access control.
- **Technologies:** React.js, Node.js, Express.js, MongoDB

Vidyadaan Sahayyak Mandal (VSM) | Full Stack Developer Intern | Work From Office

Dec 2025–Jan 2026

- Developed and deployed a complete full-stack web application from scratch.
- Built responsive UI using React.js and backend services using Node.js & Express.js.
- Integrated MongoDB for efficient data storage and management.
- Ensured smooth end-to-end deployment and functionality.
- **Technologies:** React.js, Node.js, Express.js, MongoDB, Cloudinary

PROJECTS

- **Automated Appointment Booking System** (*React.js, Node.js, Express.js, MongoDB, Mongoose*)
 - Built an appointment booking system with an integrated Admin Dashboard for a healthcare client.
 - Integrated WhatsApp API for automated appointment confirmations, reminders, and patient updates.
 - Implemented secure JWT-based authentication and role-based access control.
 - Improved patient engagement and streamlined appointment management workflows.
- **Custom Production Management ERP System** (*React.js, Node.js, Express.js, MongoDB, MinIO*)
 - Designed and developed an ERP module for clothing production with end-to-end workflow management.
 - Implemented end-to-end order lifecycle management with size-wise allocation and tracking.
 - Built role-based task assignment system for Master, Karigar, Job Work, and group operations.
 - integrated MinIO for real-time updates and secure storage of images and voice notes.

CERTIFICATIONS

- **Introduction to Machine Learning** | IIT Madras - NPTEL (Elite Badge, 60%) – Jul–Oct 2024
- **Python Course For Beginners** | Scaler Academy – Jan 2024
- **Programming Essentials in C** | Cisco Networking Academy – Apr 2024
- **JavaScript For Freshers** | Udemy – Feb 2025

ACHIEVEMENTS & AWARDS

- Secured **2nd position** in Poster Making Competition (SAKEC – Vaachan Prerna Diwas 2023).
- **Winner** of VSM Tech Hackathon.
- **MHT-CET:** 94.20 Percentile.

EXTRACURRICULAR ACTIVITIES

- **Competitive Programming & DSA** – Solving problems regularly to strengthen problem-solving skills.
- **Hackathons & Competitions** – Participated actively, demonstrating teamwork and technical capability.
